### HARD SKILLS

Node JS Serverless TypeScript AWS

Git Jest PostgreSQL Python

MongoDB Redis REST Testing

Message Brokers Info Sec

### SOFT SKILLS

Communication Teamwork Adaptability

Leadership Organization Problem-solving

Emotional Awareness Flexibility

### CERTIFICATIONS & CURSES

Serverless Applications on AWS

Clean Code e Clean Architecture

RabbitMQ: The Complete Guide with

Software Architecture Applications

Scrum Fundamentals

Bootcamp NODE.JS Developer

### LANGUAGES

Portuguese: Native or Bilingual

English: Full Professional

### ABOUT

Ever since my first exposure to IT during my elementary school days in 2002, my passion for software development has only grown. With six years of professional experience in the field, I am committed to constantly evolving both personally and professionally, so that I can deliver and maintain high-quality software and cultivate positive relationships with my colleagues.

Currently, I am contributing to the development and maintenance of a fintech product, which has provided me with opportunities to refine my software development, project management, and teamwork skills.

### EXPERIENCES

#### Back End Developer

MB Labs | Sep 2022

##### Description:

I've contributed to innovative digital financial solutions that empower resellers to streamline sales management, perform digital transactions, and gain valuable insights. Notable features include mobile accessibility, cost-efficiency, and a strong emphasis on security and modernization. Additionally, I've worked with a dynamic digital financial platform committed to simplifying financial management while rewarding users with travel miles.

##### Main activities:

- Development and maintenance of REST APIs
- Development and maintenance of serverless projects
- Evolution and development of microservices
- Maintenance of legacy projects
- Product support

#### Technical Leader (Chatbot Squad)

IT Lean | Feb 2022

##### Description:

As a technology leader, I've fully embraced my role, prioritizing team growth through the mentorship of developers. My expertise extends to conducting comprehensive technical feasibility analyses, guaranteeing the smooth execution of projects. I excel in customer relationship management, skillfully guiding project analysis through development, maintenance, and evolution phases. I've had the privilege of contributing to the success of over 10 chatbot projects across various business sectors.

##### Main activities:

- Team management
- Technical feasibility analysis of projects
- Development of REST APIs
- Training and mentoring of Juniors developers
- Maintenance of legacy projects
- Customer relationship for project analysis and maintenance
- Prioritization of demands with the team

## Backend Developer

IT Lean | Oct 2020

### Description:

I've worked on the evolution and support of chatbot projects across numerous communication channels in diverse business. Additionally, I've actively contributed to the development of a versatile SaaS and low-code solution, facilitating automated multi-channel communication by seamlessly integrating chatbots, real-time human support, and mass messaging capabilities.

### Main activities:

- Creation and maintenance of chatbot projects in NodeJS
- Product creation (LeanBot)

## Backend Developer

DEXEVO | Sep 2020

### Description:

I participated in the backend service migration of ClinApp, a mobile application exclusively designed for clients of Clin - Plano Odonto Digital (Plano Ortoclin). ClinApp simplifies dental care by offering users a digital wallet for seamless payments, a dentist locator for effortless appointment scheduling, and continuous access to dental professionals through 24/7 chat support.

### Main activities:

- Maintenance and migration of legacy software
- Development of REST APIs

## Backend Developer

RSC | May 2020

### Description:

I've had experience in website development, primarily in the e-commerce sector, and plugin development within WordPress. Additionally, I have hands-on experience in both the maintenance and integration of payment gateway projects.

### Main activities:

- Website and plugin development (WordPress)
- Maintenance in payment gateway project
- Integration with payment gateway

## System Analyst

Wan Solucoes Tecnologicas | Apr 2018

### Description:

As a system analyst, I have been actively involved in web development, including the creation of websites and plugins within the WordPress environment. Additionally, I have contributed to the development of internal desktop applications for the company, integrating them with various services and also with AWS. Furthermore, my experience extends to managing physical infrastructure and providing IT support.

### Main activities:

- Development and support of internal products (Desktop Apps and APIs)
- Website development (WordPress)
- Infrastructure support

## Freelance

Freelance | Aug 2017

### Description:

As a freelancer, I've successfully undertaken projects in both web development and desktop applications.

### Main activities:

- Desktops software development
- Web sites development

## EDUCATION
